Vedant Konde

AI Engineer — Generative AI — AI Agents — RAG — Python

+91 8830494337 — vedantkondework@gmail.com — github.com/Vedantkonde — linkedin.com/in/vedant-konde

Professional Summary

AI Engineer with hands-on experience in Python, Generative AI, LLM applications, AI agents, RAG, prompt engineering, embeddings, vector databases, SQL agents, and AI application development. Experienced in building agentic workflows using LangChain and LangGraph, developing retrieval-augmented generation pipelines, integrating LLM APIs, and connecting AI systems with structured SQL data. Skilled in FastAPI, REST APIs, data processing, ETL workflows, AWS, Git, and AI evaluation including retrieval quality, answer quality, hallucination checks, consistency, robustness, and regression testing. AWS Certified Machine Learning Engineer and AWS Certified Data Engineer with a Bachelor of Engineering in Computer Engineering and an 8.5 CGPA.

Technical Skills

AI & LLM: Generative AI, LLMs, AI Agents, Agentic AI, RAG, Prompt Engineering, Prompt Testing, Prompt Versioning, Embeddings, Vector Search, LLM APIs, Function/Tool Calling, Structured Outputs
AI Frameworks & Backend: LangChain, LangGraph, FastAPI, REST APIs, Microservices, OpenAI, Azure OpenAI, Hugging Face, Llama
Programming & Data: Python, SQL, MySQL, Pandas, NumPy, Scikit-learn, ETL, Data Pipelines, Data Processing, Data Transformation, Data Profiling, Data Extraction, Data Enrichment
Databases, Retrieval & Documents: Relational Databases, Vector Databases, Qdrant, Chroma, pgvector, Pinecone, Schema Understanding, Table Relationships, SQL Generation, Semantic Search, Retrieval Tuning, AWS Textract, PDF Processing
Cloud & Engineering: AWS, Azure, S3, Lambda, Glue, Redshift, Git, GitHub, Unit Testing, OOP, Debugging

Professional Experience

Amazon Development Center Sept 2024 – Present
Specialist – Risk Analysis and Operations

- Designed and maintained automated **Python-based data processing pipelines** to extract, transform, validate, profile, and analyze large operational risk datasets.
- Developed **SQL-based ETL workflows** and structured reporting layers for large-scale data processing, schema-based analysis, monitoring, and downstream analytics.
- Built Python automation and analytical workflows for recurring reporting, performing data extraction, transformation, anomaly identification, and risk analysis to reduce **operational risk exposure by 20%**.

Smartedge IT Solutions Pvt. Ltd.
Technology Research Analyst June 2024 – Sept 2024
Data Analyst Intern Jan 2024 – June 2024

- Analyzed business datasets to identify trends, inefficiencies, and improvement opportunities.
- Identified **20+ operational improvement opportunities**, increasing efficiency by **30%**.
- Performed exploratory data analysis to uncover patterns in user behavior and system performance.
- Built dashboards and reports to support decision-making and performance tracking.

Projects

Business Management System *React, Spring Boot, PostgreSQL, VPS*

- Took **end-to-end ownership** — architected, deployed, and maintained a production system running **6+ months with zero errors**, replacing a legacy workflow.
- Built inventory (**4,000+ SKUs**), lightweight CRM (**7,000+ customers**), sales tracking, and multi-branch support across **3 branches**.
- Integrated **WhatsApp API** and automated manual workflows, achieving **~80% reduction in manual effort**.
- Managed full production lifecycle — database design, VPS hosting, deployment, debugging, and real-user support.

AI-Powered Knowledge Assistant *LangChain, OpenAI, FAISS, MCP*

- Built a RAG system with semantic search and vector embeddings, reducing retrieval time by **70%**. Prototyped using **MCP architecture**, connecting APIs and databases for real-time context retrieval.

Leadership & Community

Founder, Gambit Chess Club — Scaled to **4 cities, 10,000+ members**; **Chess.com partnership**, 4 sponsorships, **50+ events** with Grandmasters. Print media coverage.

Founder, Niv Manch Foundation (NGO) — Free AI awareness and career guidance for rural children.
Founder, LYERS 3D Printing — End-to-end venture — sourcing, customer management, and fulfillment.
Active Member, MANS — Organized **3+ events** in Nagpur rural regions promoting scientific temperament.
AI Speaker — Seminars at **MIT WPU Pune** and 2 institutions; felicitated for AI education.

Certifications

AWS Certified Machine Learning Engineer – Associate (MLA-C01)
AWS Certified Data Engineer – Associate (DEA-C01)
IBM Data Science Professional Certificate — IBM
Google Advanced Data Analytics Professional Certificate — Google

Education

Bachelor of Engineering (B.E.) in Computer Engineering
AISSMS College of Engineering, Pune CGPA: 8.5
